### Assignment for Second Credit

Students may sign up for a second credit (unless they have done so for History 901, lec. 2). Those doing so will develop a project involving the use of primary sources in teaching American history. Students should discuss this project with the instructors during the week of June 25, and will submit it on a mutually agreed-upon date during the week of July 9. The instructors will be available for consultation by appointment during July 2-9.
